Welcome to 2026

A Year of Growth
& Member Impact

As we step into 2026, we're proud to reflect on a year defined by growth, innovation, and deepened connections with our members and community.

In 2025, The District Credit Union focused on expanding access to financial education, enhancing digital convenience, and strengthening

partnerships that support lifelong financial well-being.

Looking ahead, our commitment remains clear: **To meet members where they are**, provide tools that build confidence, and continue evolving to serve you better, today and into the future.

Thank you for being part of our credit union community and for trusting us on your financial journey.

A message from our CEO

Steve Bouras

As we step into 2026, our commitment remains strong: to meet our members where they are and continue making a meaningful impact in the communities we serve.

This year, we're deepening our focus on community involvement across Aurora, expanding volunteer efforts, and strengthening partnerships with local schools in new and innovative ways going beyond traditional financial education to support students, families, and educators where it matters most. We're also excited to open our new Financial Wellness Hub at Pickens Technical College on December 7, creating a dedicated space for coaching, resources, and connection.

At the same time, we're taking a thoughtful look at our products, services, and digital tools to ensure they reflect today's economy and your evolving needs. From enhancing our website and contact center experience to improving how we connect with you every day, our goal is simple: to make banking easier, more accessible, and more personal.

Thank you for trusting The District Credit Union as your financial partner. We look forward to another year of growth, service, and shared success.

— Steve Bouras
President & CEO

Introducing the Financial Wellness Hub at Pickens Technical College

The District Credit Union is proud to deepen its partnership with Pickens Technical College through the launch of the Financial Wellness Hub, an on-campus space designed to celebrate educators, empower staff, and equip students with real-world financial skills that support the next generation of entrepreneurs and career-minded leaders.

This Hub goes beyond traditional financial education. It's a place where we recognize the incredible impact educators and staff make every day, while bringing financial wellness to life for students through **monthly events, money challenges, workshops, and interactive activities** that make learning about finances approachable and fun.

Serving as the primary on-site representative, the Financial Wellness Coordinator works closely with students, faculty, and staff to provide personalized financial coaching, host engaging literacy sessions, and offer convenient access to credit union services. Through daily collaboration with campus teams and involvement in PTC programs and committees, the Hub strengthens connections and supports long-term financial confidence.

The Hub soft-launched on December 2, 2025, generating strong interest across campus. The **Grand Opening on January 7, 2026**, will officially kick off a year of collaborative programming focused on growing the PTC community, celebrating educator impact, and helping students build strong financial foundations.

Services available through the Financial Wellness Hub include:

- Personalized financial workshops and classroom simulations
- Budgeting and money management support
- Credit education and credit-building strategies
- Banking basics for students and first-time members
- **New account openings for students and PTC staff**

Students and members can access the Hub on campus during scheduled hours or through special events hosted throughout the year. We are excited to expand our services to the Pickens Technical College community and to continue building a strong foundation for financial confidence and long-term success.

Financial Wellness
Coordinator

More Than a Branch—A Financial Wellness Hub

Our new Financial Wellness Hub at Pickens Technical College was created to meet students and staff where they are. From budgeting and credit to goal-setting and one-on-one support, this space focuses on education, access, and long-term financial success—not just transactions.

SMARTY Book Launch

Building Financial Confidence for Families

In 2025, we were thrilled to launch **SMARTY The Caterpillar's Big Money Adventure**, our very first children's financial literacy book created to help families start money conversations early and make learning about finances fun.

Designed for young readers and their parents, SMARTY introduces age-appropriate money concepts such as saving, spending, and goal-setting through engaging storytelling, a mini money challenge, coloring pages and colorful illustrations. The book supports parents, educators, and caregivers in building financial confidence at home and in the classroom.

Parents and families can access SMARTY The Caterpillar's Big Money Adventure:

- At select community and school events
- Through financial education programs hosted by The District Credit Union
- By opening a **SMARTY** savings account at **The District Credit Union**

SMARTY is one more way we're investing in the next generation and reinforcing our belief that financial education is a lifelong journey, starting early.

Upcoming Member Events:

Save the Dates

We loved connecting with members in 2025 and are excited to continue those traditions. Mark your calendars for these upcoming events:

Shred Day
May 2, 2026

Safely dispose of sensitive documents while protecting yourself from identity theft.
